

ACC

(Self Employed & Shareholder Employee only)

We are concerned that a number of taxpayers have:

- too much ACC cover;
- the wrong type of ACC cover;
- been paying levies at the rate for full-time workers when they only work part-time (less than 30 hours a week);
- the wrong industry classification;
- not taken advantage of the change allowing separate classifications for persons on CoverPlus Extra.

All of the above mean you could be **Paying Too Much In ACC Levies!**

Strangely we don't find many clients where the ACC levies are too low.

As we generally don't get copies of ACC invoices it is very difficult for us to tell if you are overpaying or have the wrong type of cover. ACC levies are now a significant cost for many taxpayers. To ensure you are not paying too much we will review your ACC status and report back to you on any suggested changes if you authorise us to do so.

Our fee for doing this is:

1. either a flat fee of \$125 plus GST for each ACC number checked; or
2. a fee of 20% of any saving in ACC levies we can make for the 2011 and earlier years.
(If there is no saving there is no cost under this option).

For further information please contact your Account Manager.
